CABERNET SAUVIGNON

CLOUDBURST

- Margaret River -

“As far as wine is concerned at least, Will Berliner only does things by extremes. He doesn’t like machines and is deeply interested in sustainability, so his close-planted Margaret River vineyard is fully biodynamic and entirely operated by hand. Every single vine is subject to extraordinary attention. Start asking about the soils and he’ll dig you a hole. In my experience, Cloudburst pushes the limits of what is possible with total viticultural commitment in Australia. Its wines are typically multi-layered, profoundly intense and vivacious, revealing an elegance and gentle charm that belies their depth of flavour. Berliner’s are ground-breaking wines, if only for that they handsomely enlarge upon what is considered possible in Margaret River and because they have shattered the region’s previous imagined ceiling of price.”
